Dear Farm and Garden friends,

I am interested in making available, the Natural Lawn and Garden Products of Aggrand, to regional farm and gardening people. I have been in the AG industry since 1983 here in PA.

Bringing these products to the public will help keep our region green, and reduce problems of conventional chemical fertilizers. Please let me know of events where I can participate.

For a quick introduction, please click on any of the links below:

Natural Lawn and Garden Products

[Natural Organic Fertilizer](#)

[Natural Liquid Lime](#)

[Natural Organic Liquid Bonemeal](#)

[Natural Kelp and Sulfate of Potash](#)
